## INCULCATION OF NATIONAL INTEGRATION GEOGRAPHY

National integration is a socio-psychological and educational process through which a feeling of unity and harmony develops in the hearts of the people and a sense of common citizenship or feeling of loyalty to the nation is fostered among them".

To sum up, the concept of national integration includes political, economic, social, cultural and psychological dimensions and the interrelationships between them.

## **Need for National Integration:**

When national integration occurs, individuals have the possibility to work together to build systems that enhance the prosperity of a nation and its people.

Some things that may come in the way of national integration include religious or political divisions as well as communication barriers between citizens.
